EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Hick on 10/27/06.

The application has been amended as follows:

IN THE CLAIMS:

Claim 7 (Currently amended) A mountaineer's cot comprising:

a fabric with side and end sleeves, at least two inclination straps to facilitate the adjustment of the cot from sleep to sitting position,

six cot legs; wherein[[,.]] two center cot legs[[,.]] comprising swivel bolts for inclination of the cot are adapted to receive an ice ax, wherein one center cot leg is adapted to receive a point of an the ice ax extender and one the other center cot leg is adapted to receive the a shaft of the ice ax to form the a center stay of the cot; wherein four cot end legs are adapted to receive trekking poles; wherein[[,.]] two cot end legs are adapted to receive the handles of the trekking poles and the other two cot end legs are adapted to receive the tips of the trekking poles to form the end stays of the cot where the trekking poles are inserted into the end sleeves; and

~~in addition,~~ internal frame backpack stays modified to form ~~four~~ side-rails for insertion into the side sleeves and locked to the four cot end legs to complete the formation of the cot.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose a mountaineer's cot using an ice ax as a center stay, trekking poles as the end stays, and internal frame backpack stays for the side-rails. The closest prior art, Higgins (US Patent No. 6,202,907), fails to disclose the use of an ice ax or trekking poles and there is no motivation, absent the applicant's own disclosure to modify the Higgins reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
